PROFILE

I hold a strong knowledge of Frontend Development and MobileApplication without any doubt, my long-term work with React and React Native projects is really exciting and interesting. At present, I am in the last year of my BTech(Technology) in Computer Science Engineering and I am completing my course work. Therefore at the moment, I am pursuing a Bachelor ofTechnology (B.Tech) in Computer Science Engineering, and I have made it to the last semester of my course. I work hard, and as an enthusiastic, I am highly motivated to contribute knowledge and skills that will lead to business success. He or she is well-suited to working alone as well as in a team and calls upon his years of work experience to quickly learn businesses and help a company to achieve goals.

WORK EXPERIENCE

DEVELOPER AND HR

RCOP(Revolutionary Commision Of People)

2024

- As the Developer and HR of RCOP, I have collaborated with an exceptional group of tech enthusiasts and like-minded individuals from Japan, South Korea, and India.
- Our mission is to address the real-world issue of peace (SDG 16) by developing a chat platform that enables global connectivity without barriers, leveraging the power of AI.

ACHIVEMENTS/COURSES

• Front-End Development Libraries By Free Code Camp:-

Developed proficiency in building dynamic web applications by leveraging popular front-end libraries and frameworks such as React, Redux, Bootstrap, Sass, React Router, and jQuery.

• CNAv7(Cisco Certified Networking Associate):-

II have achieved student level credential for completing CCNAv7: Networks course
